Preface

This is an edition of Johan Joachim Agrell's (1701–1765) Sonata IV from his *Sei Sonate per il Cembalo Solo*, first published in Nürnberg 1748(?). The source used for this edition is a facsimile of the print made in London by I. Walsh, now preserved at the Music Library of Sweden in Stockholm.

Together with the sonatas, Agrell published a table of ornaments as seen below. The upper line is the ornaments as seen in the score, and the lower one is how it should be performed.

The purpose of this edition, as well as all other music released by me, is a combination of me trying to learn more about 17:th and 18:th century music, and, at the same time, helping other people to get hold of interesting and rare music. Suggestions and corrections can be sent to the address below.

Published by Johan Tufvesson (`tuben@lysator.liu.se`) in 1999 using only free software; TEX, the macro package MusiXTEX and the preprocessor PMX. You are welcome to make copies of this work as long as it is not for commercial reasons.
