

Valley-fold the diagonals,  
mountain-fold the vertical  
and horizontal middle.  
Rotate 45 degrees clockwise.

Valley-fold corners to the middle.

Unfold to 2. Rotate 90 degrees  
clockwise and repeat steps  
two and three. Unfold to three.

Valley-fold edges to center line.

Raise the horizontal edges, then fold  
as shown. The left and right corners  
will end up on the, locking the flaps  
in place. The points at A should meet  
at the corresponding point B.
